

CO2IN FEE SCHEDULE

Effective as of February 23, 2022

1. FEES

The table below outlines the fees charged by The CO2IN, a.s. for its Services on the CO2IN Mobile Application as outlined by the GTC and other Documents.

Fees are calculated from the turnover of a given transaction (Total EUR value of Transaction, or quantity of CO2IN as appropriate).

Transaction fees are automatically deducted from the appropriate Wallet (EUR, CO2IN) as part and parcel of the transaction. You will always see the Transaction fee and its appropriate denomination (EUR, CO2IN) in the Mobile Application.

All transactions and fees are calculated with four decimals precision, but only a rounded number to the two decimals is displayed in the app. Minimal Transaction fees of 0,01 CO2IN apply for Transactions of PAY and BURN.

The Transactions, which carry a fee are:

- Purchase of CO2IN Token (BUY)
- Sale of CO2IN Token (SELL)
- Liquidating CO2IN Tokens (BURN)
- Payment with CO2IN Token (PAY) – includes both direct payment, and accepting a payment request from another user (via app, or QR code).

*Explanatory note: Receiving CO2IN Tokens from another user does not bear a fee on the Recipient end of the transaction. The Transaction fee for a CO2IN PAY transaction is **always borne by the Payer**, i.e. the account from which the CO2IN Tokens are sent.*
